

POTATO SHED - 1911

POTATO SHED - 2013

NEW BRIDGE

NEWTOWN SHOPPING CENTRE STRUCTURAL STEELWORK HERITAGE PROJECT

WORK DESCRIPTION:

Removal of Steelwork imported from Britain between 1900-1910.
Renovate all elements and re-erect in new position.

VALUE OF WORK:

R 11 910 400.00

CONTRACT FACTS:

Duration: September 2013 – November 2014

The Potato Shed structure was erected as an open market at the origin of Johannesburg with linking bridges between the market theatre and the Potato Shed structure. So truly speaking, this was Johannesburg's first Shopping Centre and even the railway tracks were replaced in similar position. We are honoured to have been part of this development of R3.2 Billion Rand with the "Sheds" as main feature.
